#### Policy Document On Environmental Consciousness And Energy Uses

Shivaji Mahavidyalaya Udgir focuses on energy use in such a manner that it reduces harmful effects on the environment. The policy applies to the whole institution its members and its activities. Concerns about environmental efficiency are part of the daily routine in the college. We are responsible and dedicated to the cause of resource conservation.

The science departments of the college in association with NSS are dedicated to the promotion of awareness on the protection of the environment to minimize energy use, increase green literacy, and take up green campus initiatives.

The important policy objectives are

- · To explore alternatives to the use of natural resources.
- To focus on renewable resources of energy.
- To use an LED lighting system.
- To become efficient in matters of energy use and environmental protection.
- · To create awareness in the local community about efficient energy use environment protection and sustainable development.
- To harness solar energy.
- · To develop a water harvesting unit.
- To develop efficient waste management.
- To undertake a tree plantation drive.
- To minimize air pollution in and around the college.
- · To train our students and staff to become efficient in matters of energy use and environmental protection.

The policy will be communicated to the students and employees via internal communication channels and will be made available to all the stakeholders on the institution's website.

### **National Energy Conservation Day Celebration Program Report**

On Behalf of **National Energy Conservation Day** on 14 December 2022, P.G Department of Zoology, Shivaji Mahavidyalaya Udgir Dist Latur (MS), organized **National Energy Conservation Day** for College Staff members at 1;00 pm in Seminar Hall.

The Function started in Chairmanship of Dr. Vishnu Pawar, Libririan and Internal quality Assurance cell Co-ordinater on behalf of Hon Principal Dr. V.A. Jadhav sir, Felicitation of Dr. Vishnu Pawar, Dr. V.K.Bhalrao, H.O.D Department of Hindi and Dr. S.V. Shinde, H.O.D Department of Marathi was done Welcome address for the Program was given by Dr. Niture S.D, Department of Zoology All. Teaching and Non-Teaching Staff members were present to this Programme. Dr S. D. Niture introduced the purpose of Celebration of this programme. Dr Niture told that this day is observed by the Union Ministry of Power's Bureau of Energy Efficiency (BEE) every year on 14 December. In 2001, the Energy Conservation Act was implemented by the BEE. To celebrate the day, several events including discussions, competitions, debates, workshops, and conferences are held across the country. The day spreads awareness about energy efficiency, conserving it, and going green. The day focuses on making people aware of global warming and climate change and promotes efforts towards saving energy resources The Bureau of Energy Efficiency (BEE), part of the Union Ministry of Power, has been organising the National Energy Conservation Day since 1991. BEE contributes to the development and implementation of plans and programs to decrease excessive energy consumption of energy efficiency and conservation. National Energy Conservation Day is celebrated by the Ministry of Power as Energy Conservation Week from 9 to 14 December 2022 under BEE mass drive.

Dr. Vishnu Pawar sir in his Presidential speech told that now there is need of Energy Conservation. Use of Solar Panel should make compulsory to all institutes, Factories, Companies and to all houses. He told that Rajasthan is the Pioneer state in Solar Power plant installation and Use. He told Bhadla Solar Park is the world's largest solar park located in India which is spread over a total area of 14,000 acres in Bhadla, Phalodi tehsil, Jodhpur district, Rajasthan, India. Pawar sir told that Energy conservation practice is already in functioning state in our college campus as our college has already installed 45 Kw solar power plant on the roof but now it's the time of use of solar energy in houses also hence he appealed to install solar power plant and use green energy to conserve the future. The function was ended with Vote of Thanks by Dr. Niture S.D. Department of Zoology. Almost All Staff members were present to this Programme.

### **Outcome of Programme:**

Almost All Staff members were present to this Programme. This programme helped to create and spread awareness about the importance of energy and the need of conserving energy by using less energy for conservation of environment of our planet Earth. This Day celebration is all about saving energy for ourselves as well as for future generations

# YOUTH PROGRAM "EFFICIENT USE OF ENERGY & RESOURCES"

Internal Quality Assurance Cell and Department of Zoology of Shivaji Mahavidyalaya, Udgir in Collaboration with the Petroleum Conservation Research Association, Ministry of Petroleum & Natural Gas, Govt. of India, has organized

YOUTH PROGRAM on Topic "Efficient Use of Energy & Resources" to Students and Staff to Create Awareness about Energy use among Stakeholders of College on dated 02. February 2023 at 12.00A.M in the Auditorium of Shivaji Mahavidyalaya, Udgir

The Chairperson of the program was Dr Vinayak Jadhav Principal, Shivaji Mahavidyalaya, Udgir, whereas Chief guest cum Speaker was Mr. Kedar Khamitkar, Energy Auditor, Faculty-PCRA Ministry of Petroleum & Natural Gas. GOI. Convener of this programmewere Dr. U.K Shirshi, H.O.D. Dept of Zoology, Dr. Niture. S.D, Asst. Prof. Dept of zoology and Dr. V.M. Pawar (IQAC Co-ordinator). were Dr. U.K Shirshi, H.O.D. Dept of Zoology welcomed all persons on the stage. Dr. V.M. Pawar, IQAC Co-ordinator explained thepurpose of the Organization of this program.

Chief guest cum Speaker was Mr. Kedar Khamitkar, told that energy needs to be conserved to cut costs and to preserve the resources for longer use. Conventional energy sources pollute the environment by emitting harmful gases into the atmosphere. Conventionalenergy sources are limited and might expire. one day. Energy conservation is the effortto reduce wasteful energy consumption by using fewer energy services. He told that this can be done by using energy more effectively i.e using less energy for continuous service) or changing one's behavior to use less service, by driving less. Energy conservation and efficiency may be related, but they have distinct definitions in the energy world. Energy conservation involves using less energy by adjusting your behaviors and habits. Energy efficiency, on the other hand, involves using technology that requires less energy to perform the same function.

Finally Chairperson Principal, Dr Vinayak Jadhav in his presidential speech told Saving energy reduces air and water pollution and conserves natural resources, which in turn creates a healthier living environment for people everywhere. At the same time, efficiency also saves money and creates jobs.

Dr. Niture. S.D expressed Vote of Thanks of the Chief guest Principal and staff members and Students.

#### **Outcome of the Programme:**

This programme helped students and staff members to know efficient use of energy, and energy resources like conventional and non-conventional energy resources. Students and Staff members were actively involved the conversion and the question-answer session. This program helped in the creation of Consciousness about efficient energy use and conservation.

### **Earth Day Celebration Program Report**

On Behalf of Earth Day on 22 April 2022, the P.G Department of Zoology, Shivaji Mahavidyalaya Udgir Dist Latur (MS), organized an Earth Day Celebration for College Staff members. This Program was organized at 1;00 pm in the Seminar Hall of our College.

The Inauguration Function started in the Presence of Dr L.H Patil H.O.D Department of Sociology on behalf of Principal Dr. V.A. Jadhav sir, Felicitation of Guest. Dr L.H Patil and Dr. S.V. Shinde, H.O.D Department of Marathi did a Welcome address for the Program was given by Dr. Niture S.D, Department of Zoology All. Teaching and Non-Teaching Staff members were present to this Programme. Dr S. D. Niture introduced the purpose of the Celebration of this program. Dr Niture said Earth Day is celebrated on April 22 to raise awareness about saving the planet and how our actions add to climate change and global warming. It is also called International Mother Earth Day. The first Earth Day was celebrated on April 22, 1970. Gaylord Nelson, a United States Senator from Wisconsin got inspired to spread awareness about saving the planet after an oil spill in Santa Barbara, California. Deforestation, land sliding, soil erosion, water pollution, air pollution, land pollution, noise pollution, etc. have been contributing to the degradation of the environment and melting of glaciers. Earth Day is all about saving this planet for ourselves as well as for future generations. He said that the day is not far when half of the earth will be submerged under water, while the other half will be struggling for a drop to drink.

Dr. Dr L.H Patil sir in his Presidential speech said that When you spend time in nature, like lakes, rivers, trees, soil, clean air, biodiversity, water bodies, and wildlife habitats you feel true happiness by scenic mountains, clean water bodies, breathable air and lush greenery. He appealed to spend every hour and every second of the day doing better for Mother Earth. Finally appreciated for the organization and active participation of staff. The function was ended with a Vote of Thanks by Dr. Niture S.D. Department of Zoology.

#### The outcome of the Programme:

Almost all Staff members were present in this Programme. This program created awareness and consciousness about the conservation of the environment of our planet Earth. Earth Day celebration is all about saving this planet for ourselves as well as for future generations.

#### **Preface**

An energy audit is a study of a Building or facility to determine how and where energy is used and to identify methods for energy savings. There is now a universal recognition of the fact that new technologies and much greater use of some that already exist provide the most hopeful prospects for the future.

Data collection for energy audit of the M/s. Shivaji Mahavidyalaya building was conceded by EA Team on 24th April 23. This audit was over sighted to inquire about convenience to progress the energy competence of the campus.

All data collected from each classroom, Library, every room. The work is completed by considering how many Tubes, Fan, Electronic instruments, etc. in each room. How much was participation of each component in total electricity consumption.
